Graphic representation of the ECHA logo

The logo should always be used as a complete unit. The user shall never alter or distort the logo graphically. The minimum width of the logo is 30 mm and the minimum clear space around the logo is half of the height of the star symbol (see below).

MINIMUM SIZE

The minimum width of the logo is 30 mm. If the logo must be smaller, alternative logo versions should be used.

Co-branding

The clear space around ECHA and partner logos should be respected. Colour should be coherent, i.e. grayscale logos or coloured logos, not a mix.

All logos should be equally balanced visually, and aligned horizontally. All logos should be proportionately the same size. The order of the logos can be decided case by case as appropriate.
