

Summary of product characteristics for a biocidal product

Product name: SANYTOL ANTIÁCAROS

Product type(s): PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Authorisation number: RO/2021/0304/MRP/ES/APP(NA)-2019-18-00662

R4BP 3 asset reference number: RO-0027329-0000

1.2. Authorisation holder

Name and address of the authorisation holder	Name	GRUPO AC MARCA S.L.
	Address	Avda. Carrilet, 293-297 08907 L'Hospitalet de Llobregat Spain
Authorisation number	RO/2021/0304/MRP/ES/APP(NA)-2019-18-00662	
R4BP 3 asset reference number	RO-0027329-0000	
Date of the authorisation	25/09/2019	
Expiry date of the authorisation	25/09/2029	

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	GRUPO AC MARCA S.L.
Address of the manufacturer	Avda. Carrilet, 293-297 08907 L'Hospitalet de Llobregat Spain
Location of manufacturing sites	Polígono Industrial Can Serra III, Parcela I 08791 Sant Llorenç d'Hortons Spain

1.4. Manufacturer(s) of the active substance(s)

Active substance	59 - 1R-trans phenothrin
Name of the manufacturer	Sumitomo Chemical Plc
Address of the manufacturer	Hythe House 200 Sheperds Bush Road W67 NL London United Kingdom
Location of manufacturing sites	Aza-Sabishirotai, Oaza-Misawa 033-0022 Misawa City, Aomori Japan

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
1R-trans phenothrin		Active Substance	26046-85-5	247-431-2	0,45

2.2. Type of formulation

AL - Any other liquid

3. Hazard and precautionary statements

Hazard statements

Very toxic to aquatic life with long lasting effects.

Precautionary statements

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Avoid release to the environment.

IF SWALLOWED: Call a POISON CENTER if you feel unwell.

Dispose of container to hazardous or special waste collection point.

4. Authorised use(s)

4.1 Use description

Use 1 - Non-professional user / consumer

Product type

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Where relevant, an exact description of the authorised use

V.1 Non-professional user / consumer
IV 1.3 To be used in / at:
IV 1.3.2 Households / private areas

The biocidal product is intended for indoor use only by non-professional operators, to control house dust mites and bed bugs in textiles. Used for control of crawling insects: House dust mites and bed bugs.

Target organism(s) (including development stage)

Scientific name: Cimicidae:
Common name: Bed bug
Development stage: Adults

Scientific name: Pyroglyphidae:
Common name: House dust mites
Development stage: Adults

Scientific name: Pyroglyphidae:
Common name: House dust mites
Development stage: Nymphs

Field(s) of use

Indoor

Application method(s)

Method: Spraying
Detailed description:
Hoover the surfaces to be treated (mattresses, curtains, carpets...).

	<p>Apply the product spraying onto the home textiles that are not frequently washed (mattresses, carpets, upholsteries...).</p> <p>The average number of strikes to treat 1 m² of soft surface is 11.</p> <p>This bottle containing 300 ml of the product will allow the treatment of 5 beds (30 m²).</p> <p>The average number of strikes to treat one side of a Queen Size mattress is about 33 and for a single bed mattress about 20.</p> <p>Spray preferably in the morning to allow drying for 8 hours and vacuum the applied surface.</p> <p>Hoover again the surfaces to remove the dead insects.</p> <p>The mattress must be enclosed in a protective cover.</p> <p>According to the efficacy, re-apply the product every 4 months.</p> <p>This is a ready-for-use product. No dilution is required.</p>
<p>Application rate(s) and frequencies</p>	<p>Application Rate: 10 g/m² (33 strikes to treat a Queen Size mattress and 20 strikes to treat a single bed)</p> <p>Dilution (%): 100</p> <p>Number and timing of application:</p> <p>Application frequency: 1 time every 4 months, or 3 times per year (mattress).</p>
<p>Category(ies) of users</p>	<p>General public (non-professional)</p>
<p>Pack sizes and packaging material</p>	<p>Bottle - Plastic: HDPE - >= 100 to <= 1800 mL</p>

4.1.1 Use-specific instructions for use

<p>Hoover the surfaces to be treated (mattresses, curtains, carpets...).</p> <p>Apply the product spraying onto the home textiles that are not frequently washed (mattresses, carpets, upholsteries...).</p> <p>The average number of strikes to treat 1 m² of soft surface is 11.</p> <p>This bottle containing 300 ml of the product will allow the treatment of 5 beds (30 m²).</p> <p>The average number of strikes to treat one side of a Queen Size mattress is about 33 and for a single bed mattress about 20.</p> <p>Spray preferably in the morning to allow drying for 8 hours and vacuum the applied surface.</p> <p>Hoover again the surfaces to remove the dead insects.</p> <p>The mattress must be enclosed in a protective cover.</p> <p>According to the efficacy, re-apply the product every 4 months.</p> <p>This is a ready-for-use product. No dilution is required.</p>
--

4.1.2 Use-specific risk mitigation measures

<p>Spray the product preferably in the morning to allow dry for at least 8 hours.</p> <p>The mattress must be enclosed in a protective cover.</p>

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Description of first aid measures:

Inhalation: Assure fresh air breathing. Allow the victim to rest.

Skin contact: Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse.

Eye contact: Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persist.

Ingestion: Obtain emergency medical attention.

Symptoms relating to use: Not expected to present a significant hazard under anticipated conditions of normal use.

Note to physician: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

Personal precautions, protective equipment and emergency procedures:

For emergency responders: Equip cleanup crew with proper protection. Ventilate area.

For non-emergency personnel: Evacuate unnecessary personnel.

Environmental precautions: Avoid release to the environment.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Avoid release to the environment. Dispose in a safe manner in accordance with local / national regulations.

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Conditions for safe storage, including any incompatibilities:

Storage: Keep only in the original container in a cool, well ventilated place. Keep container closed when not in use.

Storage - away from: No data available.

5. General directions for use

5.1. Instructions for use

Hoover the surfaces to be treated (mattresses, curtains, carpets...).

Apply the product spraying onto the home textiles that are not frequently washed (mattresses, carpets, upholsteries...).

The average number of strikes to treat 1 m² of soft surface is 11.

This bottle containing 300 ml of the product will allow the treatment of 5 beds (30 m²).

The average number of strikes to treat one side of a Queen Size mattress is about 33 and for a single bed mattress about 20.

Spray preferably in the morning to allow drying for 8 hours and vacuum the applied surface.

Hoover again the surfaces to remove the dead insects.

The mattress must be enclosed in a protective cover.

According to the efficacy, re-apply the product every 4 months.

This is a ready-for-use product. No dilution is required.

5.2. Risk mitigation measures

Spray the product preferably in the morning to allow dry for at least 8 hours.

The mattress must be enclosed in a protective cover.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Description of first aid measures:

Inhalation: Assure fresh air breathing. Allow the victim to rest.

Skin contact: Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse.

Eye contact: Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persist.

Ingestion: Obtain emergency medical attention.

Symptoms relating to use: Not expected to present a significant hazard under anticipated conditions of normal use.

Note to physician: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

Personal precautions, protective equipment and emergency procedures:

For emergency responders: Equip cleanup crew with proper protection. Ventilate area.

For non-emergency personnel: Evacuate unnecessary personnel.

Environmental precautions: Avoid release to the environment.

5.4. Instructions for safe disposal of the product and its packaging

Avoid release to the environment. Dispose in a safe manner in accordance with local / national regulations.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Conditions for safe storage, including any incompatibilities:

Storage: Keep only in the original container in a cool, well ventilated place. Keep container closed when not in use.

Storage - away from: No data available.
