1. Administrative information

1.1. Trade name(s) of the product

Identifier	Country
CORPOL TRATAMIENTO DE MADERA ANTIXILÓFAGOS	SPAIN
ADDITIONAL NAMES: <ul style="list-style-type: none">• CORPOL MATACARCOMA• QM TRATAMIENTO MADERA• TM ANTIXILÓFAGOS	SPAIN

1.2. Authorisation holder

Name and address of the authorisation holder	Name	QUÍMICA DE MUNGUÍA S.A.
	Address	Derio Bidea,51, 48100 Munguia (Vizcaya) SPAIN
Authorisation number	ES/APP(NA)-2021-08-00778	
<i>Suffixes to the authorisation number linked to trade names¹</i>		
<i>R4BP asset reference number</i>	ES-0027064-0000	
Date of the authorisation	07/10/2021	
Expiry date of the authorisation	30/04/2026	

1.3. Manufacturer(s) of the product

Name of manufacturer	QUÍMICA DE MUNGUÍA S.A.
Address of manufacturer	Derio Bidea, 51, 48100 Munguia (Vizcaya) SPAIN
Location of manufacturing sites	Derio Bidea, 51, 48100 Munguia (Vizcaya) SPAIN

1.4. Manufacturer(s) of the active substance(s)

Active substance	PERMETHRIN
Name of manufacturer	LANXESS Deutschland GmbH, Germany
Address of manufacturer	Kennedyplatz 1 D-50569 Köln Germany
Location of manufacturing sites	Bayer Vapi Private Limited, Plot # 306/3 II Phase, GIDC Vapi – 396 195 Gujarat India

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
PREVENTOL HS 75 (Permethrin: $\geq 90 \leq 100$ % w/w)	3-phenoxybenzyl (1RS,3RS;1RS,3SR) -3-(2,2-dichlorovinyl)-2,2-dimethylcyclopropanecarboxylate	Active substance	52645-53-1	258-067-9	0.35
Petrosol D 15/20	Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics	Non active substance	64742-48-9	919-857-5 (Provisional)	92.07

2.2. Type of formulation

AL: Any other liquid

3. Hazard and precautionary statements

Classification and labelling of the product according to the Regulation (EC) 1272/2008

Classification	
Hazard category	Flammable liquid 3 Asp. Tox., 1 STOT SE 3 Aquatic Acute 1 Aquatic Chronic 1
Hazard statement	H226 Flammable liquid and vapour H304 May be fatal if swallowed and enters airways H336 May cause drowsiness or dizziness H400 Very toxic to aquatic life H410 Very toxic to aquatic life with long lasting effects
Labelling	
Pictograms	    GHS02 GHS08 GHS09 GHS07

Signal words	Danger
Hazard statements	<p>H226 Flammable liquid and vapour H304 May be fatal if swallowed and enters airways H336 May cause drowsiness or dizziness. H410 Very toxic to aquatic life with long lasting effects. EUH208 Contains Permethrin. May produce an allergic reaction EUH066 Repeated exposure may cause skin dryness or cracking</p>
Precautionary statements	<p><u>For trained professional users:</u> P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261 Avoid breathing vapours. P271 Use only outdoors or in a well-ventilated area. P273 Avoid release to the environment. P280 Wear protective gloves. P312 Call a POISON CENTER or doctor if you feel unwell P331 Do NOT induce vomiting P391 Collect spillage. P405 Store locked up. P301+P310 IF SWALLOWED: Immediately call a POISON CENTER/ doctor/... P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water [or shower]. P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing P370+P378 In case of fire: Use...for extinction P403+P233+P235 Store in a well-ventilated place. Keep cool. Keep container tightly closed. P501 Dispose of contents/container as hazardous waste to a registered establishment or undertaking, in accordance with current regulations.</p> <p><u>For professional users (non trained professional) and non-professional users (general public):</u> P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261 Avoid breathing vapours. P271 Use only outdoors or in a well-ventilated area. P273 Avoid release to the environment. P280 Wear protective gloves. 4. Authorised use(s)

4.1. Use description

Table 1. Use # 1 – Wood preservative - Preventive treatment – Industrial (Trained professionals) users

Product Type	PT 8 – Wood preservative
Where relevant, an exact description of the authorised use	Preventive treatment of solid wood (softwood) for Use Class 1 (UC 1) against wood boring insects and termites
Target organism(s) (including development stage)	Wood boring beetles (<i>Hylotrupes bajulus</i>) - Larvae Subterranean termites (<i>Reticulitermes spp.</i>) - Workers, soldiers and nymphs
Field(s) of use	Indoor use (UC 1: situation in which the wood or wood-based product is inside a construction, not exposed to the weather and wetting)
Application method(s)	Superficial application: -Vacuum pressure Automated spraying,
Application rate(s) and frequency	Ready-to-use product, no dilution required 250 mL/m ² (product retention 200 g/m ²)
Category(ies) of users	Industrial (Trained professional) users
Pack sizes and packaging material	Can (tin) with 250, 500, 750, 1000, 5000, 10000, 20000 and 25000 ml

4.1.1. Use-specific instructions for use

Always read the label or leaflet before use and follow all the instructions provided.

CORPOL TRATAMIENTO DE MADERA ANTIXILÓFAGOS provides preventive treatment of solid wood against insects (when wood is unattacked).

Please refer to section 5.1

4.1.2 Use-specific risk mitigation measures

Wear protective chemical resistant gloves and impermeable coverall (PF 90%) for mixing and loading and vacuum pressure application (gloves and coverall material to be specified by the authorisation holder within the product information).

Industrial application processes must be carried out within contained area, situated on impermeable hard standing with bunding to prevent run off and recovery system in place (e.g. sump).

Freshly treated timber must be stored after treatment under shelter or on impermeable hard standing or both, to prevent direct losses to soil, sewer or water and that any losses of the product shall be collect for reuse or disposal.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See section 5.3

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Empty containers, unused product, washing water, containers and other waste generated during the treatment are considered hazardous waste. Deliver those wastes to a registered establishment or undertaking, in accordance with current regulations.

Code the waste according to Decision 2014/955/EU.

Do not release to soil, ground surface water or any kind of sewer.

4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See section 5.5

4.2. Use description

Table 2. Use # 2 – Wood preservative - Preventive treatment – Trained professionals and professionals

Product Type	PT 8 – Wood preservative
Where relevant, an exact description of the authorised use	Preventive treatment of solid wood (softwood) for Use Class 1 (UC 1) against wood boring insects and termites.
Target organism(s) (including	Wood boring beetles (<i>Hylotrupes bajulus</i>) - Larvae Subterranean termites (<i>Reticulitermes spp.</i>) - Workers,

development stage)	soldiers and nymphs
Field(s) of use	Indoor use (UC 1: situation in which the wood or wood-based product is inside a construction, not exposed to the weather and wetting).
Application method(s)	Superficial application: -Brushing
Application rate(s) and frequency	Ready-to-use product, no dilution required 250 ml/m ² (product retention 200 g/m ²)
Category(ies) of users	Trained professional and professionals users
Pack sizes and packaging material	Trained professionals: Can (tin) with 250, 500, 750, 1000, 5000, 10000, 20000 and 25000 ml Professionals: can (tin)with 250,500,750,1000 ml.

4.2.1. Use-specific instructions for use

Always read the label or leaflet before use and follow all the instructions provided.

CORPOL TRATAMIENTO DE MADERA ANTIXILÓFAGOS provides preventive treatment of solid wood against insects (when wood is unattacked).

During product application (to timbers) and whilst surfaces are drying, do not contaminate the environment. All losses of the product have to be contained by covering the ground (e.g. by tarpaulin) and disposed of in a safe way.

4.2.2 Use-specific risk mitigation measures

Wear protective chemical resistant gloves and impermeable coverall (PF 90%) for mixing and loading and vacuum pressure application (gloves and coverall material to be specified by the authorisation holder within the product information).

See section 5.2

4.2.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See section 5.3

4.2.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Trained professional

Empty containers, unused product, washing water, containers and other waste generated during the treatment are considered hazardous waste. Deliver those wasted to a

<p>registered establishment or undertaking, in accordance with current regulations.</p> <p>Code the waste according to Decision 2014 /955 / EU.</p> <p>Do not release to soil, ground, surface water or any kind of sewer.</p> <p><u>Professional</u></p> <p>Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.</p> <p>Do not release to soil, ground surface water or any kind of sewer.</p>

4.2.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See section 5.5

4.3. Use description

Table 3. Use # 3 – Wood preservative - Curative treatment –Trained-professionals and Professionals

Product Type	PT 8 – Wood preservative
Where relevant, an exact description of the authorised use	Curative treatment of solid wood (softwood and hardwood) against wood boring insects and termites
Target organism(s) (including development stage)	Wood boring beetles, House longhorn beetle (<i>Hylotrupes bajulus</i>) – Larvae; Common furniture beetle (<i>Anobium punctatum</i>) – Larvae; Powder post beetles (<i>Lyctus brunneus</i>) - Larvae Subterranean termites (<i>Reticulitermes spp.</i>)
Field(s) of use	Indoor use
Application method(s)	Superficial application: -Brushing For intensive treatment: injection application with a syringe or with a brush to existing and controllable number of holes. To be applied in combination with superficial treatment.
Application rate(s) and frequency	Ready-to-use product, no dilution required Superficial: 300 ml/m ² (product retention 240 g/m ²) Injection: 1000 ml/m ²
Category(ies) of users	Trained professional and professional users
Pack sizes and	Trained professionals: can (tin) with 250, 500, 750, 1000,

packaging material	5000, 10000, 20000, and 25000 ml. Profesionals:Can (tin) with 250, 500, 750, 1000 ml
---------------------------	-----------------------------------------------------------------------------------------

4.3.1. Use-specific instructions for use

Always read the label or leaflet before use and follow all the instructions provided.

CORPOL TRATAMIENTO DE MADERA ANTIXILÓFAGOS provides curative treatment of solid wood against insects (when wood is attacked).

During product application (to timbers) and whilst surfaces are drying do not contaminate the environment. All losses of the product have to be contained by covering the ground (e.g. by tarpaulin) and disposed of in a safe way.

4.3.2 Use-specific risk mitigation measures

Wear protective chemical resistant gloves and coverall for mixing and loading and protective chemical resistant gloves (PF 90%) for application (gloves and coverall material to be specified by the authorisation holder within the product information).

See section 5.2

4.3.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See section 5.3

4.3.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Trained professional

Empty containers, unused product, washing water, containers and other waste generated during the treatment are considered hazardous waste. Deliver those wastes to a registered establishment or undertaking, in accordance with current regulations.

Code the waste according to Decision 204/955/EU.

Do not release to soil, ground, surface water or any kind of sewer.

Professional

Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.

Do not release to soil, ground, surface water or any kind of sewer.

4.3.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See section 5.5

4.4. Use description

Table 4. Use # 4 – Wood preservative – Preventive treatment – Non-professionals

Product Type	PT 8 – Wood preservative
Where relevant, an exact description of the authorised use	Preventive treatment of solid wood (softwood) for Use Class 1 (UC 1) against wood boring insects and termites
Target organism(s) (including development stage)	Wood boring beetles (<i>Hylotrupes bajulus</i>) - Larvae Subterranean termites (<i>Reticulitermes spp.</i>) - Workers, soldiers and nymphs.
Field(s) of use	Indoor use (UC 1: situation in which the wood or wood-based product is inside a construction, not exposed to the weather and wetting)
Application method(s)	Superficial application: Brushing or rolling
Application rate(s) and frequency	Ready-to-use product, no dilution required 250 ml/m ² (product retention 200 g/m ²)
Category(ies) of users	Non-professional users (General public)
Pack sizes and packaging material	Can (tin) with 250, 500, 750, 1000 ml

4.4.1. Use-specific instructions for use

Always read the label or leaflet before use and follow all the instructions provided.

CORPOL TRATAMIENTO DE MADERA ANTIXILÓFAGOS provides preventive treatment of solid wood against insects (when wood is unattacked).

Before treatment, cover floor around and under object to treat with a disposable, non permeable protection sheet (e.g. plastic) to avoid spilling of product on the floor.

4.4.2 Use-specific risk mitigation measures

See section 5.2

4.4.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See section 5.3

4.4.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Non-professionals:

Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.

Do not release to soil, ground, surface water or any kind of sewer.

4.4.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See section 5.5

4.5. Use description

Table 5. Use # 5 – Wood preservative – Curative treatment – Non-professionals

Product Type	PT 8 – Wood preservative
Where relevant, an exact description of the authorised use	Curative treatment of solid wood (softwood and hardwood) against wood boring insects and termites

Pack sizes and	Can (tin) with 250, 500, 750, 1000 ml

packaging material

4.5.1. Use-specific instructions for use

Always read the label or leaflet before use and follow all the instructions provided.

CORPOL TRATAMIENTO DE MADERA ANTIXILÓFAGOS provides curative treatment of solid wood against insects (when wood is attacked).

Before treatment, cover floor around and under object to treat with a disposable, non-permeable protection sheet (e.g. plastic) to avoid spilling of product on the floor.

4.5.2 Use-specific risk mitigation measures

See section 5.2

4.5.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See section 5.3

4.5.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Empty containers, unused product and other waste generated during the treatment are considered hazardous waste. Dispose of in accordance with current regulations.

Do not release to soil, ground, surface water or any kind of sewer.

4.4.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See section 5.5

5. General directions for use

5.1. Instructions for use⁶

Before using the product carefully read the precautions.

The premises where the application is made must be ventilated adequately during and after the treatment.

The product is intended to be applied directly on different types of wood such as parquet, flooring, wood decor (plinths, friezes, baseboards), carpentry (doors and

windows), structural timber (beams, cabrio, solivas, etc.), furniture and works of art.

After the product application, 12 hours must be respected before taking contact with the treated wood. If it is necessary, another treatment on the wood can be applied and additional 12 hours should be respected as well (24 hours in total).

Before applying over the entire surface of the wood, it is advisable to test on a non visible part to ensure that it does not affect the finished of the product.

It should not be mixed with any other chemical.

The users should inform if the treatment is ineffective and report straightforward to the registration holder.

The product can be harmful to protected species such as bats, hornets or birds. The presence of protected species in the area to be treated must be assessed prior to use of the product. Appropriate protective measures must be taken if necessary.

5.2. Risk mitigation measures

Keep children and pets away from treated surfaces until dried.

Keep away from food, drink or animal feedstuffs.

Do not use on wood which may come in direct contact with food, feeding stuff, and livestock animals.

Avoid prolonged contact of pets to treated surfaces.

Contain permethrin (pyrethroids), may be lethal to cats. Cats must be avoid contact with treated object area.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

First aid instructions

Poisoning may cause:

Eye and skin irritation. Alteration of nervous system. Chemical pneumonia by aspiration.

First aid:

Remove the person from contaminated area.

Remove contaminated clothing.

In the case of contact with eyes, rinse with plenty of water for at least 15 minutes. Remember to remove the contact lenses.

Wash skin with soap and water, without rubbing.

Never give anything by mouth. Do not induce vomiting.

Check breathing, if necessary, provide artificial respiration.

Take the patient to hospital and take the container or label.

DO NOT LEAVE THE INTOXICATED PERSON ALONE AT ANY TIME.

Therapeutic advice for physicians and health staff:

Symptomatic treatment

Environmental precautions:

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform to the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and materials for containment and cleaning up:

Channelling large quantities and collect in containers; dispose them according to local regulations. Wash the small amounts with water. Remove the used water according to local regulations.

5.4. Instructions for safe disposal of the product and its packaging

See sections 4.1.4, 4.2.4, 4.3.4, 4.4.4 and 4.5.4.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Keep put of sun exposure and frost.
Store in the original container.
Store in a dry place in closed containers.
Shelf life : 2 years

6. Other information

According to national legislation, in Spain there are until three user categories:

- Trained professional users (TP): pest control operators, having received specific training in biocidal product uses according to the national legislation in force.
- Professional users (NTP): professionals that use the biocidal products in the context of his profession, that is not pest control operator, and that are unlikely to have received any specific training in biocidal product use according to the national legislation in force. It can be expected that they have some knowledge and skills handling chemicals (if they must use it in their job) and they are able to use correctly some kind of PPE if necessary.
- Non-professional users (NP): users who are not professionals and that apply the biocidal product is in his private life.
