

Section A6	Any other test data on exposure	
Annex Point A6.16		
	JUSTIFICATION FOR NON-SUBMISSION OF DATA	Official use only
Other existing data []	Technically not feasible []	Scientifically unjustified [x]
Limited exposure []	Other justification []	
Detailed justification:	<p>According to the 'Technical Guidance Document on data requirements' this is an additional data requirement and under IIIA 6.16 the following is cited:</p> <p>"Any other tests related to the exposure of the active substance to humans, in its proposed biocidal products, that are considered necessary may be required. [Ann. IIIA, VI.3.5 and XI. 2].</p> <ul style="list-style-type: none"> • An expert judgement for suitable tests and reasoned case is needed as to decision that such additional studies are required (see Chapter 1.2, point 4). " <p>It is clear that the dossier contains all data relevant for an appropriate risk assessment for lactic acid used in disinfectants. Lactic acid is a naturally occurring substance in the human body and in human food, and is also authorized to be used as a food additive. As the exposure due to the use of biocidal products will not substantially contribute to the total systemic exposure, no further studies on exposure are deemed necessary. An expert statement on the role of lactic acid in the human body, as well as its presence in food (both naturally and as a food additive) is presented in A6.2-01.</p>	
Undertaking of intended data submission []	Not applicable	
Evaluation by Competent Authorities		
<i>Use separate "evaluation boxes" to provide transparency as to the comments and views submitted</i>		
EVALUATION BY RAPPORTEUR MEMBER STATE		
Date	2008/09/12	
Evaluation of applicant's justification	Applicant's version is accepted.	
Conclusion	Dossier contains all information for an appropriate risk assessment.	
Remarks	None	
COMMENTS FROM OTHER MEMBER STATE (specify)		
Date	<i>Give date of comments submitted</i>	
Evaluation of applicant's justification	<i>Discuss if deviating from view of rapporteur member state</i>
