Extended expiry date for Syngenta Crop Protection AG – Klerat Wax Blocks – NO-2014-0086

With reference to CA-June21-Doc.4.1 regarding optimisation of the second renewal process of anticoagulant rodenticides products, concerning the expiry date for the biocidal product Klerat Wax Blocks, NO-2014-0086.

Decision

The Norwegian Environment Agency hereby grants Syngenta Crop Protection AG a postponement of the expiry date for the authorisation of the biocidal product Klerat Wax Blocks on the Norwegian market. The expiry date is postponed from 10 June 2023 to 1 July 2024.

The product is mutual recognised in Norway under the terms and conditions as described in the final Norwegian Summary Product Characteristic (SPC) attached to the R4BP3 asset case no. NO-0012041-0000. The final SPC can also be found on the website of the European Chemicals Agency here: [Information on biocides - ECHA \(europa.eu\)](https://echa.europa.eu/information-on-biocides).

The grant of extension of expiry date is given in accordance with Article 5 of Regulation (EU) No 492/2014 (renewal of authorisations of biocidal products).

Background

Regulation (EU) No 528/2012 (the Biocidal Products Regulation, BPR), is implemented in Norwegian law through the Norwegian Biocide Regulation of 18 April 2017 No 480.

The reference Member State for the renewal of the biocidal product, France, have extended the authorisation for TALON BLOC until 1 July 2024. For authorisations that are mutual recognised, it is agreed among the Member States that these authorisations shall have the same expiry date as the national authorisation granted by the reference Member State (c.f. CA-Sept14-Doc.5.7 –Final).

The current expiry date for the Norwegian authorisation is 30 June 2023.

Evaluation by the Norwegian Environment Agency
