If eye irritation persists: Get medical attention.

In case of fire: Use water to extinguish.

4. Authorised use(s)

4.1 Use description

Use 1 - Bacteriocidal skin spray

Product type

PT03 - Veterinary hygiene (Disinfectants)

Where relevant, an exact description of the authorised use

Hygienic ready-to-use skin spray for general disinfection of the navel area as part of good hygiene practice following: calving or lambing.

Target organism(s) (including development stage)

Scientific name: Staphylococcus aureus
Common name: Bacteria, aerobic Gram-positive
Development stage:

Scientific name: Pseudomonas aeruginosa
Common name: Bacteria, aerobic Gram-negative
Development stage:

Scientific name: Candida albicans
Common name: Fungi/yeasts
Development stage: Yeast

Field(s) of use

Other

Veterinary hygiene. Corporeal hygiene.

Application method(s)

Method: Direct Trigger Spray
Detailed description:

For Spray Application
Wipe the area to be disinfected with a clean dry disposable towel before application, to remove any visible dirt and debris.
Turn spray nozzle to the open position.
Hold the spray 10cm from the area of skin where it is to be applied.
Direct nozzle of spray towards the area to be disinfected and spray directly ensuring complete coverage of the area of application.

	Allow product to dry on skin.
Application rate(s) and frequencies	Application Rate: Complete coverage of the area of application. Dilution (%): N/A Number and timing of application: Once daily for up to 5 days to ensure complete hygiene control.
Category(ies) of users	Professional Trained professional
Pack sizes and packaging material	Type of packaging - Bottle Size/volume of the packaging - 500ml Material of the packaging - PET Type and material of closure(s) - Trigger Spray (PP & PE) Intended user (e.g. professional, non-professional) - Professional Compatibility of the product with the proposed packaging materials (Yes/No) - Yes

4.1.1 Use-specific instructions for use

For Spray Application

Wipe the area to be disinfected with a clean dry disposable towel before application, to remove any visible dirt and debris.
Turn spray nozzle to the open position.
Hold the spray 10cm from the area of skin where it is to be applied.
Direct nozzle of spray towards the area to be disinfected and spray directly ensuring complete coverage of the area of application.
Allow product to dry on skin.
