

Justification for removing a substance from CoRAP prior to evaluation

Substance Name (public name): Cerium dioxide

EC Number: 215-150-4

CAS Number: 1306-38-3

Authority: Germany

Date: 22/03/2022

The priority for evaluating the substance has been reconsidered based on:

<input type="checkbox"/>	The initial hazard ground of concern has been verified and considered of low priority

<input type="checkbox"/>	The initial exposure/risk ground of concern has been verified and considered of low priority

<input checked="" type="checkbox"/>	The generation of information under Substance Evaluation is considered of low priority because
	<input type="checkbox"/> Already ongoing or implemented regulatory risk management process(es)
	<input type="checkbox"/> Registrants' (voluntary) action addresses concern <i>Specify</i>
	<input checked="" type="checkbox"/> Other: The withdrawal is not based on the clarification of the concern which has been documented in the Justification Document, i.e. concerns regarding a potential risk based on the properties of the nanoform(s) of Cerium dioxide. ¹ The evaluating Member State Competent Authority (eMSCA) of Germany considers that prior to a substance evaluation on Cerium dioxide to address these concerns, first a compliance check needs to be performed by ECHA to clarify the identity and composition of the respective nanoforms of the Substance. Based on the outcome of ECHA's compliance checks, the re-priorisation of Cerium dioxide for substance evaluation and potential amendment of the justification for CoRAP inclusion will be assessed by the eMSCA.
