

Justification for removing a substance from CoRAP prior to evaluation

Substance Name (public name): 10-undecenyl 2-cyano-3,3-diphenylpropenoate

EC Number: 700-604-0 (List number)

CAS Number: 947701-81-7

Authority: FI (Finnish Safety and Chemicals Agency)

Date: 19/03/2019

The priority for evaluating the substance has been reconsidered based on:

<input type="checkbox"/>	The initial hazard ground of concern has been verified and considered of low priority
	<ul style="list-style-type: none"> • <i>Indicate the initial hazard ground of concern (e.g. suspected CMR, ED, PBT, as presented in chapter 5.3 of the CoRAP justification document)</i> • <i>Provide the reasons for reconsidering their relevance.</i>

<input checked="" type="checkbox"/>	The initial exposure/risk ground of concern has been verified and considered of low priority
	<p>Initial concern:</p> <ul style="list-style-type: none"> • Suspected PBT/vPvB properties. Due to use in ordinary consumer products (sunscreen lotion) the substance was estimated to have wide dispersive use. <p>Verification:</p> <ul style="list-style-type: none"> • Consumer use of Undecenyl crylene as such seems unlikely as the substance is formulated to a polymer outside of the EU before preparation of the sunscreen ingredient in the EU. Therefore the estimated wide dispersive use of Undecenyl crylene would concern only a small amount of unreacted monomer in sunscreen lotions, if any. • Due to low tonnage of the substance (1-10 t/y) and use only in polymerized form, substance evaluation of Undecenyl crylene is for the present not considered a priority by the FI CA.

<input type="checkbox"/>	The generation of information under Substance Evaluation is considered of low priority because
	<input type="checkbox"/> Already ongoing or implemented regulatory risk management process(es) <i>Specify which process(es) and explain, e.g. compliance check, substance evaluation for a larger group, restriction, SVHC identification, others</i>
	<input type="checkbox"/> Registrants' (voluntary) action addresses concern <i>Specify</i>
	<input type="checkbox"/> Other: <i>Specify</i>
